Summary

Passionate UX/UI Designer specializing in accessible websites and mobile apps. Skilled in WCAG and Section 508 compliance, user research, and design systems, with a strong track record of improving digital accessibility for diverse audiences.

Experience

Senior UI / UX Designer

540 LLC | April 2025 - Present | Arlington, VA (remote)

- Leads the design of biometric-focused applications by transforming complex workflows into intuitive, scalable digital experiences.
- Collaborates cross-functionally with product managers, engineers, and stakeholders to deliver high-impact UX solutions within agile teams.
- Conducts user research, maps user stories, and produces wireframes, prototypes, and high-fidelity UI designs.
- Ensures adherence to Section 508 and WCAG 2.1 standards through audits, reviews, and accessibility-informed decisions.
- Reviews and improves the work of peers to maintain design consistency, quality, and usability across projects.
- Supports design strategy and direction across teams by embedding best practices and promoting user-first thinking.

Senior UX Accessibility Designer

Ad Hoc LLC | May 2022 - February 2025 | Washington D.C.

- Led UX design and accessibility initiatives for the VA: Health and Benefits mobile app, ensuring usability for millions of Veterans.
- Conducted accessibility audits, testing, and compliance reviews to align with WCAG and Section 508 standards.
- Developed and maintained UX and accessibility documentation, checklists, and test plans for scalable implementation.
